

TIPS ON ECO-FRIENDLY TRAVEL

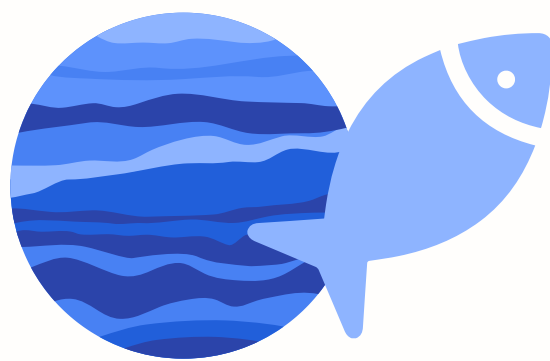

OUR ISLAND IS OUR MOST PRECIOUS TREASURE. WE ASK YOU TO HELP US TAKE CARE OF IT.

We are located within the Natural Area of the Serra de Tramuntana.

It is important to take care of this natural area. You can consult all the information, including prohibited and permitted activities, at:

https://www.caib.es/sites/espaisnaturalsprotegits/es/paraje_natural_de_la_serra_de_tramuntana-21742/

Minimize the use of chemical products that could harm the ecosystems. Use sunscreens that do not harm the marine ecosystem

Mallorca is located in an extremely high water scarcity risk zone. Use water wisely and help us avoid unnecessary laundry

Prioritize purchasing products from local businesses. You will be helping to make our island more sustainable

Use public transportation, bicycles, or carpooling. Our Staff can guide you on the available alternatives

Use air conditioning and other electrical appliances only when necessary. You will be helping to reduce our carbon footprint

Remember that waste can often be resources as well. Think about whether what you are going to discard could have another life

Separate waste correctly for proper management. Inside the establishment, you will find the necessary containers. If you have any questions, please consult our staff
